SUBJECT: Monthly IT Report – January 2023

PURPOSE:

For information.

BACKGROUND:

Sturgeon Public Schools has welcomed a new System Analyst to the Technology Services team, bringing the team back up to its full complement. In January, the team has continued the deployment of the Evergreen Program, ensuring that older Chromebooks, computers, and other technology are cycled out of the system.

In coordination with other departments and school-based leadership, the Technology Services Team is creating a standardization document that will guide the Division into the future to meet technology challenges. The draft version of the ‘living document’ will be distributed in early February to ensure that the impacted teams are able to provide their input.

Administration is prepared to respond to questions at the January 25, 2023, Public Board meeting.
